(first verse)

Just breath,
it'll be over soon,
just breath,
make it past noon,
your all i see,
Can u see,
im just me,

This life,
needs a head start,
this girl,
needs a jump start,
i wont,
make it past noon,
im just me,

so lets lay down the law,
break the law,
you'll ge thrown in jail,

(chorus)

These dieing days,
these useless ways,
behind those lies,
i cry,

these useless songs,
this is goin so wrong,
behind those lies,
i cry,

(second verse)

This fragile,dead, cold heart,
has now been torn apart,
you,
cant see,
im bleedin inside, bleedin inside,

just build me up,
build these walls,
its an endless journey,

a useless worry,
im bleedin inside, bleedin inside
so lets lay down the law,
break the law,
you'll ge thrown in jail,

(chorus)
These dieing days,
these useless ways,
behind those lies,
i cry,

these useless songs,
this goin so wrong,
behind those lies,
i cry,

So throw it away,
forget those useless days,
throw all away,
forget those regretful ways,
im tryin to get through,
this barrier keeps me away,
im tryin just to say,

(chorus)
These dieing days,
these useless ways,
behind those lies,
i cry,

these useless songs,
this goin so wrong,
behind those lies,
i cry,

behind those lies,
i cry,
behind those lies,
i cry,
behind those useless lies,
I die..
