he's sittin alone in a bar,
Im sittin alone cryin in a car,
And its useless to cry,

He's drunk singing kareoke,
While im at home sayin everythings ok,
And its useless to cry, its useless to cry,

But have you ever hated something so bad,
You could have just killed it,
Or have you ever felt so sad,
You could have done suicide,
But Im ok without him,
Im ok without anyone,

When the world comes crashin down,
We've got nothin left,
The explotions hitting the town,
Never felt so wrong,
We gotta move on,
Just move on,
Forget the past,
We gotta move on,
Just move on,

He's got a smile that cant be beaton,
Ive got friends, for only a season,
And its useless to cry.

And He lit up my world for a week,
Now my heart is something to seak,
And its useless to cry.
But have you ever hated something so bad,
You could have just killed it,
Or have you ever felt so sad,
You could have done suicide,
But Im ok without him,
Im ok without anyone,

When the world comes crashin down,
We've got nothin left,
The explotions hitting the town,

Never felt so wrong,
We gotta move on,
Just move on,
Forget the past,
We gotta move on,
Just move on,

He's got my heart,
And he tore it apart,
And i cant stop my death,

He stole my heart,
And tore it apart,
And i cant stop my death...
No i cannot!

When the world comes crashin down,
We've got nothin left,
The explotions hitting the town,
Never felt so wrong,
We gotta move on,
Just move on,
Forget the past,
We gotta move on,
Just move on,

Yeah...
