Looked into the mirror
Straight into my head
Looked into the mirror
This is what I said

"One thing I can tell you
You got to believe
One day you and I
We're gonna be free"

Went down to the church
I looked at the stained glass
Went down to church
I said my own mass
One thing I can tell you
It's all gonna pass
You and me
We're gonna get outta here fast

I went down to the city
I looked up at the sky
I went down to the city
Looked a mile high

One thing I can tell you
You got to say goodbye
'Cause you and me
We're gonna fly
