"Snowstorm"

Visit "[Snowstorm](#)" on MotoLyrics.com

The wind is blowing
And the trees all bend
The wind is blowing
And the trees all bend
The wind is blowing
And the trees all bend
No one knows
If it's ever gonna end

The fire's always hottest when it's cold outside
Gotta come in when the clouds collide
Can't let the fire grow cold and die
Oh no

The boards are creaking
And the houses sway
The boards are creaking
And the houses sway
The boards are creaking

And the houses sway
And everyone prays
For the month of May

The fire's always hottest when it's cold outside
Gotta come in when the clouds collide
Can't let the fire grow cold and die
Oh no

There's no more wood now
Something's gone wrong
No more wood now
Cause something's gone wrong
I said there's no more wood now
Cause something's gone wrong
We gotta burn this house down
'Till the motherfucker's gone
