Still sitting in that doorway  
Where you convinced me that  
we'd find a way to work this  
out but it turns out that  
You're just a little psycho  
You have the notion that  
Once I say yes to one thing  
Its all you're gonna get

I cannot see right now  
With your face in my way  
You gave me your reasons why  
Just back up off me.

It is time that I looked up  
see this image  
For what is was  
For what it was

It is time that you closed off  
Find your place right  
where you belong  
Where you belong (without me)

I can tell you now  
This is underground  
Everything you break  
Anything you break  
Is permanent damage

When you're all alone  
You feel so all alone  
Don't you yell at me  
Don't you yell at me

I feel no sympathy

Find me crying  
Hell, you'll be lying  
You have nothing  
that I want from you

Can't you that I'm just  
On a different playing field  
Its nothing against you  
Wait, it is, its how I feel

If everyone can see me  
Then they'll see how much we don't belong  
If anyone can see me  
Then you'll see how much you don't belong  
If anyone can read me  
Then they'll read how far that this has gone  
If anyone can hear me  
Then they'll hear how loud you have become

hide and stay  
And don't you move  
an inch from that place

Try to find  
a solid piece of evidence

That proves your point  
can't you see that I am tired

Of your lies  
Where you belong.  
Where you belong
