Can you save this  
Can you take it down

I cannot take this  
I'm bitten falling to the ground.  
It's all I need.

Well here it is I, don't expect this world to listen when I  
say I'm sorry  
Yes I'm sorry

And everything I said  
Every word I spoke  
you know I did it to impress you  
The weakness we obscure to

The stain of blood red that you made  
You never came back to LA  
You know I wanted to.  
You know I wanted to

Even though you're trapped inside that room  
Shades of crimson and that dark dark blue  
I'll come to brighten  
I'll come to brighten you

I never wanted to die  
Just scrape the face you held at  
You never should have cried  
Then we might be somewhere better  
even though we dived

It just leaves some things better  
Blue filled my eyes  
No longer storms for weather

I say when I fall down  
We'll sink straight through ground repeat

Yes I'm falling deeply in myself  
I am your mind  
Freed from these skies

This skin will protect from what I held  
Take that first flight  
Things will be fine

Every now and then I wonder if its really me I'm after  
I'll pretend to love you  
Truth is I'll be loving myself

Even though this hurt I speak of  
Is hidden underneath the break up  
I'll pretend to hate you  
The truth is I'll be hating myself

Every now and then I'll wonder if its really them I'm  
after  
I'll pretend to save them  
The truth is that I'm saving myself.
