[Verse 1:]

Holding on to something that's already gone
And even in your heart you know this is all wrong
And but you keep on coming back, you keep on coming
back
Hoping that one day the train will get back on the track

You tried and you tried (but it's taking over)
You feel in your head (can't get no longer)
And you wasting your time (your time)
And he keep making you cry (making you cry)
Girl it's going to be the last time

[Chorus:]

I can be your knight in shining armor
Go ahead and call him
Tell him that his time is up
Girl just leave him alone, leave him alone
Leave him alone, leave him alone girl

I can be your knight in shining armor
Go ahead and call him
Tell him that his time is up
Girl just leave him alone, leave him alone
Leave him alone, I'll be your knight in shining armor girl

[Verse 2:]

Keep on telling me you don't know how to leave him
He just keeps playing with your heart girl you don't
need him
You gotta let it go, you gotta let it go
I'll be the one that holds you down so you don't feel it
no

You tried and you tried (but it's taking over)
You feel in your head (can't get no longer)
And you wasting your time (your time)

And he keep making you cry (making you cry)
Girl it's going to be the last time

[Chorus:]

I can be your knight in shining armor
Go ahead and call him
Tell him that his time is up
Girl just leave him alone, leave him alone
Leave him alone, leave him alone girl

I can be your knight in shining armor
Go ahead and call him
Tell him that his time is up (Yeah)
Girl just leave him alone, leave him alone
Leave him alone, I'll be your knight in shining armor girl

[Bridge:]
You ain't gotta worry about it anymore (anymore)
Some things he do to you is misery
He doesn't treat you like I can
You deserve a better man
Realize I can be your knight in shining armor
And girl I (yeah)

[Chorus:]
I can be your knight in shining armor
Go ahead and call him
Tell him that his time is up
Girl just leave him alone, leave him alone
Leave him alone, leave him alone girl

I can be your knight in shining armor
Go ahead and call him
Tell him that his time is up
Girl just leave him alone, leave him alone
Leave him alone, I'll be your knight in shining armor girl
(girl, yeah)
