{Verse 1}

What do you see

Look in my eyes

Is it real or just a disguise

Take me in

Hold me close

Squeeze me tight and don't let go

{Chorus}

Crash, let it sink in

Having someone to hold your hand

And never let go

Please don't let go

Just be my friend

And surround me

{Verse 2}

Going in circles

It's all the same

People, the places, things never change

No one to talk to

I need an escape

Squeeze me tight and keep me safe, keep me safe

{Chorus}

Crash, let it sink in

Having someone to hold your hand

And never let go

Please don't let go

Just be my friend

And surround me

{Bridge}

Take me in, hold me close

Squeeze me tight and don't let go

Don't let go

{Chorus}

Crash, let it sink in

Having someone to hold your hand

And never let go

Please don't let go

Just be my friend

And surround me
