Discontent over the untamed!!
We shall only preserve battery stockbreeding,
Some secret dens to subject hairballs to grim testing,
We shall preserve a few mice for labs,
And apes on TV shows to clown around...

So welcome to Dolly and co.,
Transgenic pigs feeding and mad cows.
Let's sacrifice eveything to lobbies,

Selfish intersts, obsolete passions and our primitive
instincts...

Let's make out today an exhaustive list
Of all the pointless ceatures overstanding
Our stupid lusts, encroaching upon our vanities...
And when our savage drives are repleted, we'll get
back
to our fratricidal wars.
