We'll quickly find ourselves trapped into the nice mess
we've made,
And our kids will pay the price for all our misjudgments
and mistake.
We clearly see through the obvious range of the
damage
done...

Gross productivism, stifling consumerist system,
Full speed factories, the worship of money,
The reign of technocracy aiming to assign
The only true progress of this failing overall system,

Its superior finalities, moral compartments

GDP kept as the only valuable measure
Of states evolution grade,
Prejudices, mistakes and more heresies...

E clearly see through our governments deficiency,
keeping this situation worsening
Ain't facing the consequences
Therefore we'll keep ignoring...
