I know a girl, I know a girl
Who's got the world at her fingertips
When she moves like this, she
She's got the boys, she's got the boys
On their knees for a look at her sheets
But they never get too far (never get too far)

It's like a push against the weight of the world
When tellin' you that you're my favorite girl
A little closer's where I'm trying to be
So I'm setting it up like your favorite love scene

I think I'm goin' crazy
Cuz now she's callin' me baby
(now she's calling me baby, baby)
Girl you're like my favorite drug
I'll never ever get enough, it's
CRASH, BANG, LIGHT ME UP!!!
Every time I feel her touch

And if its sounds ridiculous
You've never seen her move like this
And girl you'd be my only wish
If genies really do exist
If touching you is such a rush
You're never ever close enough, it's
CRASH, BANG, LIGHT ME UP!!!
Every time I feel her touch

I set it up, so set it off
It's what I'm trying to see
It would work a little better
If you were two steps closer to me
Cuz close enough ain't close enough
Until I'm dying to breathe
If you're the kind to kiss and tell
Then, baby, tell me what you're hiding

Girl, If you start to move, then I'll take the lead

And if you hit the lights, then I'll set the scene
By the end of the night you're standing with me

And it's looking a lot like your favorite love scene

I think I'm goin' crazy
Cuz now she's callin' me baby
(now she's calling me baby, baby)
Girl you're like my favorite drug
I'll never ever get enough, it's
CRASH, BANG, LIGHT ME UP!!!
Every time I feel her touch

And if its sounds ridiculous
You've never seen her move like this
And girl you'd be my only wish
If genies really do exist
If touching you is such a rush
You're never ever close enough, it's
CRASH, BANG, LIGHT ME UP!!!
Every time I feel her touch

I think I'm goin' crazy
Cuz now she's callin' me baby
(now she's calling me baby, baby)
Girl you're like my favorite drug
I'll never ever get enough, it's
CRASH, BANG, LIGHT ME UP!!!
Every time I feel her touch

And if its sounds ridiculous
You've never seen her move like this
And girl you'd be my only wish
If genies really do exist
If touching you is such a rush
You're never ever close enough, it's
CRASH, BANG, LIGHT ME UP!!!
Every time I feel her touch
