Visit "[Love Someone Like Me](#)" on [MotoLyrics.com](https://MotoLyrics.com)

That dancing moon is on the water  
Do you feel inclined romantically?  
If you do, I think you oughta  
Love someone like me

There ain't no place you should be goin'  
Ain't no need for you to leave  
It's a lovers night, the stars are showin'  
Well you could love someone like me

And someone else might try and find you  
But my love could set you free  
If your heart has got a mind too  
You could love someone like me

That dancing moon is on the water  
Do you feel inclined romantically?  
Well, if you do, I think you oughta  
Oh love someone like me

You've been thinkin' love won't find you  
Honey, wait right here and see  
And if your heart has got a mind to  
You could love someone like me

And someone else might try and find you  
But my love will set you free  
If your heart has got a mind too  
You could love someone like me  
You could love someone like me
