Pulled you from my coat
Had a seat and cleared my throat

Poured you in a cup
Stirred you down and drank you up

I can never get tired of you
There's no need for something new
I can never get sick of you
Brown's a good colour on you

Can't take my darts away
Doesn't matter what they say
The benefits outweigh the cost
Cigarettes I'm smoking every day

Pulled you from my coat

Had a seat and cleared my throat

Poured you in a cup
Stirred you down and drank you up

I can never get tired of you
There's no need for something new
I can never get sick of you
Brown's a good colour on you

Can't take my darts away
Doesn't matter what they say
The benefits outweigh the cost
Coffee's what I'm drinking every day
