I want to make love to you
Spare me the cliches
Don't want to be friends with you
Just want to have my way
Then I'm gone

There aren't too many girls who fuck like you
I just want to have a taste of you
And your chocolate flavoured skin

Don't want to sing songs for you
Meet your folks or hold hands
You'll know when I'm in the mood

All I care is that you meet demands
Don't care what you're saying to me
I don't care what you think
Don't be wasting my time with your feelings
Just finish your drink
And we're through

There aren't too many girls who fuck like you
I just want to have a taste of you
And your chocolate flavoured skin
