They opened a gate  
And the demons came through  
Deimos and Phobos  
Were assailed by Doom  
Descended to hell  
To save mankind  
Made it to Dis  
And killed the Spider Mastermind

Soldier in hell  
Did it twice by myself

Saved my race  
From the demons in space

Came back to earth

And found the demons had arrived  
Blasted them to pieces  
'Till not one of them survived  
Wanted to prevent this  
From ever happening again  
Went back to hell  
And killed the Icon Of Sin

Soldier in hell  
Did it twice by myself

Saved my race  
From the demons in space
