I saw the puck
Right in front and on the ground
I took a chance
Picked it up and flew without a sound

Think about it from time to time
Moved so fast I barely touched the ice
These are moments that take you by surprise

Opponents near me

Took their claws and threw them from my chest
Forgot to shoot
Scored the five hole, didn't need to rest

Think about it from time to time
Moved so fast I barely touched the ice
These are moments that take you by surprise
