I will never lose my freedom
You'll have to kill me lest I give a damn
I'm prepared to fight until the end
For my voice, my choice, and intellect

Our resolve will not be broken
Democracy must live forever
No matter what the cost, we'll make it
Nobody will forget this

Rally here and let the bastards know

Their fascist ways, we'll never tolerate
All the nations come to stand as one
Under the banner of democracy

Our resolve will not be broken
Democracy must live forever
No matter what the cost, we'll make it
Nobody will forget this
