Don't let them haters hold you down Stand tall with your head to the clouds The world is yours you just gotta go and take it It's all up to you life is what you make it You got time they expecting you to waste it If you got a dream wake up and go chase it, chase it I don't believe in failing And if they steppin on me boy this is..

(Chorus)

MotoLyrics

Watch me now Imma hold it down Imma do it big imma show them what i'm bout Imma bring it on, prove them haters wrong Said I would make but it's all Cuz they wanna see me shine They wanna see me shine

Had rough days and some long nights Now im flyin' cross the world I'm along with flights There were many times I wished for better days Had faith in God cause he would make a way I went from working hard to working harder I went from working smart to working smarter Bout to to take off its time for departure No time to waste cause the world i gotta conquer Big dreams see I had to go and chase it AInt no stopping us cause we are dedicated Working hard cause I'm tryna be the greatest The world is mine and I'm about to go and take it

(Chorus)

They wanna see it, I tell them watch this They tryna slow me down but they can't stop this Oh you do it big, but you can't top this I got the keys so they call me the locksmith Never fall back, don't know what you call that Pull up all black oh I know you saw that Said you been in for a minute don't recall that And they liken my shine, cause I believe it's my time And we ain't going no where

If you feel me put your hands in the air

(Chorus)

Lights, Camera, Action Cut the engine we just need a little 'laxin And these women they ain't nothing but distraction Thats why its money over women THey act like they look attractive But I ain't wrong man I do it with some passion And they don't wanna see us draw back Put your ray bans on before you go blind I lost my mind, turn into a maniac On my grind so I can live the life of a famous man Where my haters at, we got plenty Now you about to see us shine on the city

(Chorus)
