Right now  
You let me down  
Some things will never change  
Everything stays the same forget my name  
I can't believe  
What I have seen  
The only thing that I have ever thought to be sure of  
Was never anything

Walking around with my gun in hand  
A knife in my back and I can't  
I can't be stopped

Was it worth it to end this so tastelessly  
You crossed the line  
So say goodbye

Right now, (right now)  
You let me down (you let me down)  
Some things will never change  
Everything stays the same  
Forget my name

But I can't breathe  
With you near me  
And now you'll see that I will be just fine without Your  
lies  
I'm walking away

Walking around with my gun in hand  
A knife in my back and I can't  
I can't be stopped

Was it worth it to end this so tastelessly  
You've crossed the line

So say goodbye

Right now (right now)  
You've let me down (you let me down)  
Some things will never change  
Everything stays the same

Forget my name  
And by now (by now)  
I found you out (I found you out)  
So don't pretend that its okay  
Telling me to give you one more day

Open your eyes  
You run and you hide  
But I will seek you out  
Forget everything you think you know about me  
This is the last time goodbye  
The last time goodbye

Carry with me  
The weight of the sea,  
Now watch it all  
Begin to fall. (3x)

Right now  
You've let me down (you let me down)  
Some things will never change  
Everything stays the same  
Forget my name  
And by now (by now)  
I found you out (I found you out)  
So don't pretend that its okay  
Telling me to give you one more day
