Verse 1, 2:

Waves crash in honor of You  
Skies break to make way for You  
Worship our glorious, worship our Glorious  
Mountains bow down at Your throne  
Valleys rise up to adore  
Worship our Glorious, worship our Glorious

Chorus:

Behold His Majesty, the King of every king  
Glorious God, You are Glorious God  
He walks on wind and sea, creation joins to sing  
Glorious God, You are Glorious God

Verse 3:

Saints who've been captured by grace  
Rise up as one, take Your place  
And worship our Glorious, worship our Glorious God

Chorus:

Behold His Majesty, the King of every king  
Glorious God, You are Glorious God  
He walks on wind and sea, creation joins to sing  
Glorious God, You are Glorious God

You are Glorious God, You are Glorious God  
You are Glorious God, You are Glorious God
