It's like a street gang with a name
If you want the job done right, do it yourself
It'd be nice to have no boss
So destroy at all cost

You fuck with one, you fuck with all
Kind of a motto but without the rules
Question: can you take control?
Destroy at all cost

Complacent kids, erasing kids
If they want trouble they'll get it
Amidst youth and youth unrest
They're all depressed
If you want a job done right at all
Destroy home and destroy school
Destroy me and destroy you
Destroy at all cost
Destroy at all cost
Destroy at all cost
