So you keep talking about
how you're doing wrong
and all that stuff
saying it's impossible
you can't believe that we're in love

I refuse to run
not tryin to hide
or prove myself
to justify it
what we got is a good thing
baby you and me is all we need
so....

So whatever whatever whatever no we'll never
no well never ever never not be together
Through the balmy nights and stormy weather
we'll be together , forever ever

la la la la la
la la la la la
la la la la la

Even through the ups and downs
and the disagreements
we'll be one
Nothing can break us down
or come between us
we won't give up

Devoted to you always
and forever more
there's no one else im searching for
but what we got
is a good thing(good thing)
you and me is all we need (all we need)

x2

So whatever whatever whatever no we'll never
no well never ever never not be together
Through the balmy nights and stormy weather

we'll be together , forever ever

x2

la la la la la

la la la la la

la la la la la

It's killing me
cause they can see
how perfectly
we're meant to be, boy
you're the half to the whole of me
you know, you know

you and me for eternity
nothing can ever come between, us
don't they know that you're the one for me
you know, that you know

la la la la la

la la la la la

la la la la la

x2

So whatever whatever whatever no we'll never
no well never ever never not be together
Through the balmy nights and stormy weather
we'll be together , forever ever

*until fade
