

Basement Three "Everytime I Say"

Visit "[Everytime I Say](#)" on MotoLyrics.com

You come into my life
and I am not surprised
Cause every time I see you 'round
My heart goes up and down

You're deep inside my soul
I lose my self-control
Every time you go away
I feel like you're afraid

Every time I say you're leaving, lover
That's when (???) comes to me right now
I want to fly with you, we are together
You go left, you go right, I'll be by your side

Every time I say you're leaving, lover
Tell me honey I'm your shining sun
Well baby, now I know I'm your favorite lover
All I need is your love in your eyes

You are my paradise

My flower in the skies
Just let me tell you what I want
The only one I want

You're deep inside my soul
I lose my self-control
Every time you go away
I feel like you're afraid

Every time I say you're leaving, lover
That's when (???) comes to me right now
I want to fly with you, we are together
You go left, you go right, I'll be by your side

Every time I say you're leaving, lover
Tell me honey I'm your shining sun
Well baby, now I know I'm your favorite lover
All I need is your love in your eyes
