Graveyard, a place to sleep safely,  
but after all lately,  
there you found out,  
i see tombstones everywhere,  
walking dead on the bus,  
how ...  
funeral marches where played for us,

and when you speak it's just like,  
nobody hear the world,  
and when you on the ground it's like,  
nobody really cares,  
but if you fall in love with someone,  
you can go anywhere,  
so go on, go on, yeah!

graveyard, a place to sleep safely,  
but after all lately,  
there you found out,  
i see tombstones everywhere,  
walking dead on the bus,  
how ...  
funeral marches where played for us,

and when you speak it's just like,  
nobody hear the world,  
and when you on the ground it's like,  
nobody really cares,  
but if you fall in love with someone,  
you can go anywhere,  
so go on, go on, go on, go on, go on, go go go!
