Isn't enough to be grateful for what you've been given
You've got to be driven to take what you have and
make it a life worth living
You could have nothing to say but so long as you could
listen
If you Could Be taken away
A Very Merry Un-birthday

Another day is rising
There's no reason to try to hide
Kindly direct your eyes toward to the horizon
It's a good day to be alive, it's a good day to be alive,
It's a good day to be alive

Another day is rising
There's no reason to try to hide
Kindly direct your eyes toward to the horizon
It's a good day to be alive, it's a good day to be alive,
It's a good day to be alive
