You're running in circles
Yet travelling in straight lines
You're racing around
You move at the speed of time
We're running together
We're moving along the way
Whatever the weather
You'll find there'll be no delay
Sure you can hit the beaten track
But you can never turn it back
One way
Moving on a straight line
Moving on a straight line
You're making decisions
You wonder which way to choose
There's this way and that way
How could you ever lose
We're shifting together
We're on a production line
All drifting together
As a patent unique design
Yes you can hit the beaten track
But you can never turn it back
One one
Straight lines straight lines
Straight lines straight lines
Straight lines straight lines
Straight lines straight lines
Moving on a straight line
Moving on a straight line
It's part of the service
That carries you on ahead
There's only the one way
The ticket is on your head
With robot precision
We're gonna be doin' just fine
So here we are here we go
Moving in one straight line
Sure you can hit the beaten track
But you can never turn it back
One way
Straight lines straight lines

Straight lines straight lines
Straight lines straight lines
Straight lines straight lines
Moving on a straight line
Moving on a straight line
