I saw you crying, will you were dying
On a lonely summer night
The moon is rising, were see the shining
Cover you in a bloody night
We're locking you're eyes just like we dispase
And I feel sorry now,I see what I've done
What if I become
Now please just... don't lie to me
I never meant to hurt you

Don't leave me now

And I will allways love you

He's just not breathing, I'm still believing
If it too soon for you too die?

Your chest is drying after the fighting,
Now just please come back to life
I wanna show you what my world is like,
what is like to be the beast, I wanna take you to
my world that's why I kill you

Come back to me

I never meant to hurt you

Don't leave me now

And i will allways love you

Come back to me

I never meant to hurt you

Don't leave me now

And I will allways love you

[Come back to me, don't leave now]

Come back to me

I never meant to hurt you

Don't leave me now

And I will allways love you

Come back to me

I never meant to hurt you

Don't leave me now

And i will allways love you
