I was once in a line, I was once in a line for a long time
I was waiting awhile and now it's time to go
I was once in your arms, I was once in your arms for a
long time
I was once in your arms, and now you're gone for good

Cuz you sang for me, December x4

We were once intertwined, we had a life and plan on
our mind
We had a life and plan but now we were robbed blind
You were once beautiful, you are still beautiful in my
mind
You were my only girl, but he took you and left me
behind

Cuz you sang for me, December x4

December...

December...

I will remember you, I wont forget you
My life will go on in your name
It won't ever be the same...

December....December....December....December....

Cuz you sang for me, December x4
Cuz you sang for me, December x4
