"Into The Sky"

Visit "[Into The Sky](#)" on MotoLyrics.com

When you were born,
you grew up after world war 1 it was wonderful
When you were bored,
you always liked to get in trouble just to have some fun
never to be told...

That your life will fade away someday
into the sky you'd make your way
no doubt on earth your seeds will go
no doubt on earth your seeds will grow

It's been thirty years
you have a family and no fears life is wonderful
Just wait til he hears
You never wanna let him go he will love you so
never to be told

That your life will fade away someday
into the sky you'd make your way
no doubt on earth your seeds will go
no doubt on earth your seeds will grow

I might be gone, but I'm not far
Wherever you go, I'm wherever you are x4

Now that you've passed
the love you gave will always last it is wonderful
We all love you so we never wanna let you go
Just wanna let you know, it's okay to go

Cuz your life will take away someday
into the sky you'd make your way
no doubt on earth your seeds will go
no doubt on earth your seeds will grow

I might be gone, but I'm not far
Wherever you go, I'm wherever you are x4
