My world is created, it's different every time
I start inside a box, the world on the outside
The sun is going down soon, I better go inside
I cover up the door, so I can wait and hide.

The mine is so dark now, it's hard to even see,
The tunnel's getting black, im almost out of trees,
I go back for more coal, and find there's nothing left
But theres something in the dark, and I think it's after
me.

CHORUS:

Minecraft, I'm talkin bout Minecraft,
Talkin' 'bout Minecraft, talking 'bout minecraft X2

It's been all of night now, and I haven't heard a sound
I can't see outside, is there anyone around
I need to leave here soon, before it's night again
I open up the door, and the creeper is let in.

CHORUS X2
