I wish you could see the things I see
I wish you could see the point like me
I want all of you to know its better inside your own
shoes
its our own life we choose to abuse

I want you to be who you want to be
I want you to try even if you can't see
I want all of you to know its better when done your own
way
its our own life we choose everyday

Come walk with me, let yourself (decide) x3
Choose an open door, make up your mind and go
(inside) x3

Dont forget where you come from
Its important to you
then you know what you're meant for
in life

Come walk with me, let yourself (decide) x3
Choose an open door, make up your mind and go
(inside) x3

Dont let anyone tell you what to do
You must go with what you know
Take some pride with what you hold inside
It will take you where you want to go

From the year I was born there was a sound in my head
and it sounded quite like this
I followed it around and what I found was very sound
and now I spread it all around like this
and everyone should know that I do not do this for
show
in fact my love for making music is for real
and if you really want to know how to express your
thoughts aloud
then maybe you should try to make some muic too

We are one we are many we are tough and strong
We gotta stick together if we wanna live long
We are free you and me so do what you want to do
in life

Dont let anyone tell you what to do
You must go with what you know
Take some pride with what you hold inside
It will take you where you want to go

Come walk with me, let yourself (decide) x3
Choose an open door, make up your mind and go
(inside) x3

The open door...
The open door...
The open door...
The open door...
The open door...
