Some nice air kept me up all night in bed
My eyes are closed but I can see it
Something nicer that shook the ground where I'm
standing
All the rights words that she said, she said

Sea sick this better be ocean
Stay close come this far
Sea sick this better be ocean
Stay close

Nicer for many things all start running
Facing my own fears one more time
Some nicer made me feel humor with me
All the hours that she said, she say

Sea sick this better be ocean
Stay close come this far

Sea sick this better be ocean
Stay close
Sea sick, oh, hold your breath
Hold your breath
Sea sick this better be ocean
Stay close come this far
Sea sick this better be ocean
Stay close
Sea sick this better be ocean
Stay close come this far
Sea sick this better be ocean
Stay close come this far
Sea sick this better be ocean
Stay close come this far
Sea sick this better be ocean
Stay close.
