Luke Bryan - I'll Stay Me

Verse 1

T-shirt, blue jeans don't like much on TV
Caviar and a Triscut ain't no redeye gravy on a biscuit.
My deep Southern drawl makes the conversation crawl
You're gonna have to hang around long enough to hear
me out.
Some folks aren't happy like they are.
Some wanna take things just a little too far.

Chorus 1

Singers wanna be Hollywood actors
And millionaires wanna ride old farm tractors
I am just what I am, I'm just what you see.
So I'll make it easy, I'll stay me.

Verse 2

Old dog old truck still kickin up plenty of dust
I like my little town where the people don't let you down
There's a girl down the street got a kiss just waitin on
me
Hot dog sweet potato fries when I go over tonight.
She knows exactly who I am
A soft touchin' her love loving, hard working man.

Chorus 2

Quarterbacks wanna play lead guitar
And supermodels want smaller body parts
Change is good sometimes, but buddy I believe
I'm gonna make it easy, I'll stay me.

Repeat Chorus 1
