It all happened so fast
Didn't take long, but it felt so right
Though we're miles and miles apart
You're always with me, all the time
In my heart and in my mind

Looking in your eyes, it will always be
All my questions answered,
Everything I need
I feel like I know you, as much as I know me
That's what I see
Looking in your eyes

You know this is really crazy
For this to happen so soon
I never felt like this before
You read me so easy, like an open book
When you walk through my door
And I feel even more

Looking in your eyes, it will always be
All my questions answered,
Everything I need
I feel like I know you, as much as I know me
Yeah, that's what I see
Looking in your eyes

When I look in your eyes
I see my whole story
And when you look in mine
You're right here for me
I feel like I see myself in you
And you do too
With nothing to hide, that's why I
Glance right back
Look into your eyes and it'll always be
All my question answered, everything I need
I feel like I know you, as much as I know me
That's what I see
Looking in your eyes
