No! Gangboss no!
We don't want the whip!
As you get weaker

We don't want no gangboss
We want to equalize
We gang, we want to equalize till

No! Gangboss no!
We don't want the whip!

As you get weaker, it will get harder
So don't be like them
Your bones of effort and strength
Don't sell out to them

We don't want no gangboss
We want to equalize
We don't want no gangboss
We want to equalize

To my father's father's father work was no joy
When his son, grown of age, you've got to work now my
boy
Father, father's father, they've had to work hard boy
Never ceasing for many years, want to follow that boy?

We don't want no gangboss
We want to equalize
We don't want no gangboss
We want to equalize

Till half and half is equalized, oh put down the tools
See the car, see the house, see the fabulous jewels
See the world you have built in with shoulders of iron
See the world but it is not yours say the stealers of Zion

We don't want no gangboss
We want to equalize
We don't need no gangboss
We want to equalize

Geneva, Wall street
Who makes them so fat?
Well well, me an' you
Better think about that in overdrive

Till humanize is equalize
Oh, put down the tools
Every face on every side
Throw down the tools

We don't want no gangboss
We want to equalize
We don't need no gangboss
We need to equalize

Going home, don't check with Rome
Paint strike on the door
It's one to one, the fight is on
So don't go to war

We don't need no gangboss
We need to equalize
We don't need no gangboss
We need to equalize

Move me on
