Intro:
Hey, can you hear me? (Oooh Uh)
Can you hear me quiet? (Hey)
I just need somebody to love me truly (Hey)

(Ohh) I don't need a lot of things, I just need
love,(Ooooh)
(Ahhh) I need to be loved, I want to be loved (Wo Wo)
If anybody can hear me, promise me that you'll be true
(Ohh) (Hey)
Would you please just come to me (Yea)

Even If this person promised you that he would stay
together for a lifetime I thought you were so warm

If someone realized that I've been more important Oh
why...I've been...Oh why

Those which I want are not so many, although even a
single flower on my birthday is ok

Hey, where are you? I would like to see you again even
now...

It is probably the expectation which stays with people
more than the number of stars in the sky

I want to be loved. My heart is uneasy at night so can
you just stay next to me?
Someone, Someone

That's all it takes...

I want to be loved, but looking at the tears which flow,
can you just tell me, "It will be alright?"
Someone... Someone...

That's all it takes....

Why do the words, "I love you" only seem like a line?
the relationship is not audible like a partner who
doesn't stay?
When I can speak to him he says, "I'm busy" and hangs
up the phone

Those which I want are not so many. Usually every time
we meet, it is not a special date

Hey, where are you? I would like to see you again even
now...

Repeat- chorus

I promise if it is for the two of us,
(I'll be good to you)

I don't need a diamond ring
I don't need a fancy car
All I want is just one, love

repeat - chorus

That's all it takes...
Someone, Someone
If I am to be loved...
Someone, Someone
