can do  
Let's go

Girl I kept you here, told you it would work this time  
Promised you I'd change this time, but I lied to ya  
Girl I fought back tears, last day you walked out on  
years  
Feels like I realized my fears, but I get used to it

Didn't know I would hurt you like I did  
And I'm sorry, I'm sorry

Sometimes I gotta let you run 2 walk away, run 2 walk  
away  
Sometimes I gotta ain't got holdin' me down  
So I can change like I did, since we one little kiss  
Who would think we started this  
But I gotta let you run so I can walk away (eh, eh, eh,  
eh, eh, eh)  
Run 2 walk away  
Oh, I gotta let you run so I can walk away

When we were together, felt I could do anything  
Girl I told you everything, it was for your heart  
Told you I was forever when I was 15  
Didn't know what your love meant, now somebody help  
me

Now, can't you see that I can't be your man  
I don't understand  
Tryna figure this out

Sometimes I gotta let you run 2 walk away, run 2 walk  
away  
Sometimes I gotta ain't got holdin' me down  
So I can change like I did, since we one little kiss  
Who would think we started this  
But I gotta let you run so I can walk away (eh, eh, eh,  
eh, eh, eh)  
Run 2 walk away (Yeah)  
Oh, I gotta let you run so I can walk away

I've tried not to say, that I think about ya, its gettin  
harder  
Cuz I need ya, cuz I need ya, cuz I need ya, cuz I need  
ya  
Yeah, you were the one, why did I let you run

Sometimes I gotta let you run 2 walk away, run 2 walk  
away  
Sometimes I gotta ain't got holdin' me down  
So I can change like I did, since we one little kiss  
Who would think we started this  
But I gotta let you run so I can walk away  
(I said sometimes)

Sometimes I gotta let you run 2 walk away, run 2 walk  
away  
Sometimes I gotta ain't got holdin' me down  
So I can change like I did, since we one little kiss  
Who would think we started this  
But I gotta let you run so I can walk away (eh, eh, eh,  
eh, eh, eh)  
Run 2 walk away  
Oh, I gotta let you run so I can walk away
