"Every Man and Woman Is a Star"

Shadows, tag lovers
Don't smile, be wise
Pray that the world keeps us all down
Tempests, bad trips
Small lies, kill signs.

Kill the beast in the ditch.

Pray that the world keeps us all down
Every man and woman is a star
Lying out like the shadows, they don't know who you
are

Slow down, don't cry
Yeah, you're soon, you're over

Kill the beast in the ditch
Gotta kill the beast in the ditch.

Pray that the world keeps us all down
Every man and woman is a star
Lying out like the shadows, they don't know who you
are.
