## "Holy Mountain"

I fell in love  
With your face  
Take down the walls  
Of this place

You're a wild thing  
You say wild things  
But much too wild I think

You're a wild thing  
You say wild things  
But much too wild I think

And you sense the heat in my heart  
And she broke me down like a dog  
And I cried and cried  
Till I couldn't speak no more

You're a wild thing  
May say wild things  
But much too wild I think

Child  
Hush your mouth  
Innocence  
Please don't speak

You're a wild thing  
You say wild things  
But much too wild I think

You're a wild thing  
And everything you say wild things  
But much too wild I think
