Bless the children and the beasts so beautiful unique
Their destruction makes me weak my experience is so
deep
Her voice is a beatin' down she pushes through the
crowd
And kisses me on the mouth and her name is ah
Libertine
Libertine and I can't quite control myself
Libertine and I can't quite control myself
Libertine and I can't quite control myself
Libertine and I can't quite control myself
All my friends are at the feast angry righteous free

Fightin' the disease violence against the seed
Her voice is a beatin' down for time and around the
crowd
She kisses me on the mouth and her name is ah
Libertine ooh
Libertine and I can't quite control myself
Libertine and I can't quite control myself
Libertine and I can't quite control myself
Libertine and I can't quite control myself
Libertine Libertine aw Libertine Libertine
Libertine and I can't quite control myself
Libertine and I can't quite control myself
Libertine and I can't quite control myself
Libertine and I can't quite control myself
Libertine Libertine aw Libertine Libertine
