Exterminating angel  
With burning sword in hand  
Cast out these snakes, these heathens  
A judgment made, a sentence past

You're not gonna use us  
You're not gonna push us to the ground  
You're not gonna fool us  
You're not gonna turn us inside out

Your shallow beauty fading  
While only bones remain  
A blackest heart's procession  
No love to give  
You only take the light away

You're not gonna use us  
You're not gonna push us to the ground  
You're not gonna fool us  
You're not gonna turn us inside out

You're not gonna use us  
You're not gonna push us to the ground  
You're not gonna fool us  
You're not gonna smash our skulls and bones

Language is broken  
The path is ferocious  
Ascend to the highest  
Through canyons of fire  
Chaos surrounds us  
Who comes against us  
As above so below

Until the light takes us  
Until the light takes us  
Until the light takes us  
Until the light takes us  
Save us
