Yeah, yeah, yeah, yeah, yeah, yeah
Ever since you've been gone I've been checking my
phone
Checking to see if you called me but my voice mail is
still empty
Got me hearing your voice even when I'm alone
It's like I'm seeing things that I want to be true, true
Mi mind is thinking of you
Wonder what can I do to bring you back this way?
I gotta find a way

Back to you we're from this part until you knew the truth
Is that you in my mind? I'm losing my mind, I'm losing
my mind
I'm losing my mind, I'm losing my mind
My greatest talk of you
Can somebody tell me what I'm closer to?
Thought you in my mind, I'm losing my mind, I'm losing
my mind
I'm losing my mind, I'm losing my mind

Things on the floor don't wanna go out
I thought you loving me we're here by my side
I'm not myself anymore, ever since you walked out the
door
To tell you the truth, my mind is thinking of you
Wonder what can I do to bring you back this way
I gotta find a way

Back to you we're from this part until you knew the truth
Is that you in my mind? I'm losing my mind, I'm losing
my mind
I'm losing my mind, I'm losing my mind
My greatest talk of you
Can somebody tell me what I'm closer to?
Thought you in my mind, I'm losing my mind, I'm losing
my mind
I'm losing my mind, I'm losing my mind

The voices in my head telling me that it's all my fault,
girl

I do for you, I do for you
Voices in my head telling me that it's all my fault, girl
I do for you, I for you

Back to you we're from this part until you knew the truth
Is that you in my mind? I'm losing my mind, I'm losing
my mind
I'm losing my mind, I'm losing my mind
The greatest talk of you
Can somebody tell me what I'm closer to?
Thought you in my mind, I'm losing my mind, I'm losing
my mind
I'm losing my mind, I'm losing my mind
Losing my mind.
