Within this prison, I shrink in fear  
My sins around me like a chain  
My sentence fitting, for my guilt is clear  
I'm not worthy of this shame

For things I've done, and failed to do  
My sins are mine and mine alone  
Lord, hear this sinner, for only you  
Can break through this heart of stone

### CHORUS

You said "I am here till the end; with you both  
night and day"  
So now, Lord, send your Spirit friend  
To be with me, I pray

Show me your Spirit in wind and flame  
Show mercy to a sinful one  
Show me the vision to serve your name  
That thy will on Earth be done

(repeat chorus)

Hold me in your light, O God  
Send to me your Spirit's flame  
Save me from the night, my Lord  
Defend my heart from evil's claim  
Save me from the plight of sin  
Cleanse me of my guilt and shame  
Melt my heart, ignite my soul  
Dwell in me and make me whole  
Hold me in your light, O God  
Break this frozen heart of stone  
Kindle and ignite your fire  
Make me burn with love alone  
Hold me in your light, O God  
Wake the seeds of love you've sown  
Melt my heart, ignite my soul  
Dwell in me and make me whole
