Refrain:

I will never forget you
For your name, I have carved on the palm of my hand
Though the night may be empty
You will hear me, for I will be calling your name

Do you not know? Have you not heard?
I am the eternal God
I am the first, and with the last I will be
Fear not, I call you by name
Be still, and know I am your God

(Refrain)

Do you not see? Can you not feel?
Never have you been alone
I am within you, there in your heart
Rest now, and quiet your soul
Be still, in silence I am there

(Refrain)

In the night, we yearn for you (fear not?I call you by
name)
And we pray your light shine through (be still, and I
know I am God)
Come to us, Lord, take our fears away

(Refrain)
