We come to you
Jesus the Lord, the Christ
The Lamb of God sacrificed
We hunger, Lord, for your presence here
Fill our hearts, draw us near

For at that table with your friends
You said ?Take this and receive?
And Jesus, now we celebrate
We gather and believe

CHORUS

That by your body, we are fed
When we eat this blessed bread
In your suffering and strife
We share the cup of eternal life!
A feast of love that never ends
And Lord you call us all, your friends:
?Come and celebrate! Join the Feast!?

We are the ones
The ones who seek your face
Come dwell with us in this place
And holy Lord, in this simple meal
We are one, we are healed

Now at this table, we your friends
We take this sacrifice
The bread, the cup of saving love
The Body, Blood of Christ!

(Repeat Chorus)
