### "Never Surrender"

Put on the armor you've got the sword  
Prepare to fight for you've got the final word  
The power of darkness is pushing in  
They call it fashion but it's known as sin  
The Evil One knows all too well  
Gives you the world but you burn in hell  
The Lord is with you for ever more  
The power of God always wins the war

Bridge

He can give the power to make it through  
He gives us the strength, He cares for you

Chorus twice

Never surrender, never say die, never, never  
Jesus won the battle for you and I  
Never surrender never say die, never, never  
Jesus won the battle for you and I

You've got the power don't be ashamed  
You gotta stand up for the name of Jesus  
Can't be defeated he's breaking through  
The power of God is coming down on you  
A change is coming. it's in the air  
Stand up and shout He's coming back again  
We've got the fire it's in our hearts  
The hand of God will show you the way

Repeat bridge

Repeat chorus

(lead guitar break)

Repeat chorus 5x
