Turn my head and keep on walkin
ain't no sense in girlfriend shoppin
self-control is on my conscience
on a roll no need to stop it
Turn my head and keep on walkin
ain't no sense in girlfriend shoppin
self-control is on my conscience
on a roll (noooo)
I look at you I hear you talkin
(whoa whoa whoaa yeah yeah) I wave at you
but you just keep walking
(whoa) how can I make you see
you need to be lookin at me
baby i'm your guy I got to got to got to have you
how can I make you see you need to be lookin at me
baby i'm your guy I got to got to got to have you
Turn my head and keep on walkin
ain't no sense in girlfriend shoppin
self-control is on my conscience
on a roll no need to stop it
what do I think i'm doing it can't be worth it (noohh)
I can't stop this feeling
I don't think i'm dealing baby(I don't think i'm dealing)
these stars that i'm seein
cloudin my vision
my intuition can't make decisions
I got to be with you
you are the only one that I know can make this feeling
go away (away) away (away) away (away) (I don't think
i'm dealing baby)

I know it's wrong that I shouldn't go there(whoa whoa
whoaa yeah yeah)
the way she smiles with them flips that long hair (can't
help it)(whoaa)
how can I make you see you need to be lookin at me
baby i'm your guy I got to got to got to have you
how can I make you see you need to be lookin at me
baby i'm your guy I got to got to got to have you
look at me not like I need you
but you smell so sweet I can't resist you
we don't even got to meet (not like we need to)

but you make my feet freeze up like hot glue
I don't care I don't care I just can't take it
I go anywhere anywhere long as we make it
I go anywhere anywhere long as we make it together
I can't stop this feeling
I don't think i'm dealing baby(I don't think i'm dealing)
these stars that i'm seein
cloudin my vision
my intuition can't make decisions (can't make
decisions)
I can't stop this feeling
I don't think i'm dealing baby(I don't think i'm dealing)
these stars that i'm seein
cloudin my vision
my intuition can't make decisions
I got to be with you
you are the only one that I know can make this feeling
go away (away) away (away) away (away) (I don't think
i'm dealing baby)
