Got my genome mapping
Got my genome mapping
Caught my smart dog napping
Got my genome mapping

I'm a marinade
Of what's hot this summer
I'm an early comer
Bought a Gulf War Hummer

Every fad, I feel it's force
Every trend, I do endorse
Got my genome mapping
Caught my smart dog napping

I'm charging up the new, new thing
I'm answering a customized ring
I'm starting from the place you stop
I'm packing for an ego trip, hop

Stop the scam, you day traders in a traffic jam
Can the craze, all you players outta plays
Fight the man, all you suckers for a better brand
They got us living on the fad of the land, yeah

Get your pager on
'Cause you know my number
I'm a wireless wonder
Got thumbs of thunder

I'm lifting on a new, new thing
I'm answering a customized ring
I'm starting from the place you stop
I'm packing for an ego trip, hop

Stop the scam, you day traders in a traffic jam
Can the craze, all you players outta plays
Fight the man, all you suckers for a better brand
They got us living on the fad of the land

Soul daddies in a fire wire tumble dryer

Soul mamas broke the breaker
Soul children packin' Prozac pacifiers
Get your plug-in, we plug in
We all need to plug in to our maker

They got us living

I'm lifting on a new, new thing
I'm answering a customized ring
I'm starting from the place you stop
I'm packing for an ego trip, hop

Stop the scam, yeah
Can the craze, yeah
Fight the man, yeah yeah
They got us living on the fad of the land

Just stop the scam, you day traders in a traffic jam
Can the craze, all you players outta plays
Fight the man, all you suckers for a better brand
They got us living on the fad of the land
They got us living

Stop the scam, you day traders in a traffic jam
Can the craze, all you players outta plays
Just stop the scam, all you suckers for a better brand
Can the craze, all you players outta plays
Fight the man, all you suckers for a better brand
Can the craze, all you players outta plays

Just stop the scam, all you suckers for a better brand
Can the craze, all you players outta plays
Fight the man, all you suckers for a better brand
