

Newsboys "Miracles"

Visit "[Miracles](#)" on MotoLyrics.com

You ever seen a brother or sister who could cure a
disease
I hadn't but I wanted to
Show the world that nothing's impossible if they can
believe
They're gonna see a miracle

I didn't know what to do
So I went running to you
To find that cure
Now I know for sure...

I'm done looking around
I finally figured it out
It's more than metaphysical

You got me up from down
Faith has shattered my doubts
I believe in miracles

I knew what I wanted to do but just like gravity's pull
I always did the opposite

Life was a meaningless party
I started to fall into a bottomless hole
But then I got a miracle

Some people don't have a clue
If all of this could be true
But take a look at me
I was blind but now I see

I'm done looking around
I finally figured it out
It's more than metaphysical

You got me up from down
Faith has shattered my doubts
I believe in miracles

There's something that's missing
If we can't recognize

That our own existence
Is the miracle before our eyes

I'm done looking around
I finally figured it out
It's more than metaphysical

You got me up from down
Faith has shattered my doubts
I believe in miracles

I'm done looking around
I finally figured it out
It's more than metaphysical

You got me up from down
Faith has shattered my doubts
I believe in miracles

It's more than metaphysical
