

## Newsboys "One Shot"

Visit "[One Shot](#)" on [MotoLyrics.com](http://MotoLyrics.com)

All around the world  
Every boy, every girl's got one shot  
Believers let me hear you shout  
Hey!  
Hey!

You could find me  
Living in the city of DC  
Found my freedom in the rhythm of the backbeat  
God placed a love inside that I could not control  
Beside me, had a brother saying I could sing like Nat  
King  
But all I wanted was to do the rock thing  
To roll through every town and spread His love around  
Just a little while then I found

All around the world  
Every boy, every girl's got one shot  
To prove what they're all about  
I'm gonna sing about my God  
And it doesn't matter what's hot  
Believers let me hear you shout  
We say there's one way  
When push comes to shove  
We're gonna sing of His love

Things change  
Just like the Twitter that you update  
Or your Facebook status on your front page  
But there's no comment you can leave to change my  
mind  
Maybe you're a student at the college of the ivy  
Or filling up a pop machine with Hi-C  
Anywhere you might be  
You can help the world see  
What His love's about  
Believers let me hear you shout

All around the world  
Every boy, every girl's got one shot  
To prove what they're all about  
I'm gonna sing about my God

And it doesn't matter what's hot  
Believers let me hear you shout  
We say there's one way  
When push comes to shove  
We're gonna sing of His love

Are we scared to stand out from the crowd?  
Make a difference in our own town?  
If we stay silent with our voices now  
The rocks will cry out  
Believers let me hear you shout

All around the world  
Every boy, every girl's got one shot  
To prove what they're all about  
I'm gonna sing about my God  
And it doesn't matter what's hot  
Believers let me hear you shout  
We say there's one way  
When push comes to shove  
We're gonna sing of His love

All around the world  
Every boy and girl  
All around the world  
Every boy and girl  
All around the world...
